A Self Financing Co-Educational College of Arts & Science

Affiliated to the University of Madras

Re-accredited at 'B++' Grade by NAAC & An ISO 9001:2015 Certified Institution

Selavayal, Chennai, Tamil Nadu, India

Minutes of the Grievance Redressal Committee Meeting

The meeting was held on 24.07.2023 at 2 p.m in the Principal's office

Agenda:

To consider students grievances found in the redressal box

Review of the Request:

Complaints of students of II B.Sc (Chemistry) regarding the fan speed:

- The student has requested to change the regulator of the fans in their classroom due to poor speed which affects students' comfort and teaching hours especially during summer season.
- The committee felt that the proper air flow is essential to maintain a conducive learning environment. The above issue was forwarded to administrative department / electrician to resolve as earlier as possible.

Decision taken:

The concern regarding the poor speed of fans in the classroom affecting the student comfort and concentration was noted. The health and well-being of students are a priority for the institution. Therefore, student's request was considered after review. The regulators were changed in fans to maintain optimal speed in the classrooms.

Minutes of the Grievance Redressal Committee Meeting

The meeting was held on 19.02.2024 at 2 p.m in the Principal's office.

Agenda:

To consider students grievances found in the redressal box

Review of the Request:

Complaints of students of II B.Sc (Computer Science) A-Section regarding the turn on fans and lights during break hours:

- a. It is a common practice in College to turn-off fans and lights when not in use in classrooms and common areas during break hours, leading to unnecessary energy consumption and increased utility costs.
- b. The request to keep fans and lights on-mode during break hours has been carefully considered by the committee. We understand the importance of maintaining a comfortable environment for students who choose to stay in classrooms or common areas during breaks. Adequate ventilation and lighting are indeed essential for comfort, safety, and productivity, particularly in the warmer months.

Decision taken:

Necessary instructions were given to the sweepers that keep fans and lights in turn-on conditions in classrooms and designated common areas during short breaks when a significant number of students are likely to use these spaces.
